Chemical Properties

CAS	
Formula	C ₈ H ₁₃ NO ₆
MW	219.19
Storage	
Structure	 <p>The image shows the chemical structure of O-Succinylhomoserine. It consists of a succinyl group (a four-membered ring with two carbonyl groups) attached to the oxygen of a homoserine molecule. The homoserine part is a four-carbon chain with a carboxylic acid group at the end and a hydroxyl group on the second carbon. The chiral center is labeled 'Chiral'.</p>
