

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37828
Name	N-Benzoyloxycarbonylserylleucinamide

Tel: +86-21-58447131  
Fax: +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>17</sub> H <sub>25</sub> N <sub>3</sub> O <sub>5</sub>
MW	351.4
Storage	
Structure	 <p>The chemical structure shows a serylleucine derivative. It features a central alpha-amino acid backbone with a hydroxyl group (HO) and a hydrogen atom (H) on the alpha carbon. The side chain consists of a beta-carboxyl group (COOH) and a gamma-benzyloxycarbonyl group (COOCH<sub>2</sub>Ph). The nitrogen atom is substituted with a hydrogen atom (NH<sub>2</sub>). The structure is labeled 'C17H25N3O5'.</p>
