

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37847
Name	Homocitrulline

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	
Formula	C7H15N3O3
MW	189.21
Storage	
Structure	 <p>The chemical structure of Homocitrulline is shown as a skeletal structure. It consists of a central six-carbon chain. The first carbon is part of a primary amide group (-NH2). The second carbon is part of a secondary amide group (-NH-). The sixth carbon is part of a primary amide group (-NH2). The seventh carbon is part of a carboxylic acid group (-COOH). The carboxylic acid group is labeled as 'Chiral'.</p>
