Chemical Properties

CAS	
Formula	C7H15N3O2
MW	173.21
Storage	
Structure	 <p>The chemical structure shows a 7-carbon chain. The first carbon is part of an imidazole ring (CH₃ and H N). The second carbon is a CH₂ group. The third carbon is a CH₂ group. The fourth carbon is a CH₂ group. The fifth carbon is a CH₂ group. The sixth carbon is a CH group with an NH₂ group attached. The seventh carbon is a COOH group, labeled as 'Chiral'.</p>
