Chemical Properties

| | |
|-----------|--|
| CAS | |
| Formula | C ₁₈ H ₂₈ N ₂ O ₆ S ₂ |
| MW | 432.55 |
| Storage | |
| Structure |  <p>The image shows the chemical structure of Captopril disulfide. It consists of two captopril units linked by a disulfide bridge (-S-S-). Each captopril unit features a proline ring, a butyramide side chain, and a dihydroxybutyramide side chain. The label 'Captopril' is placed above the right-hand unit.</p> |
