

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37886
Name	Oleoyl proline

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>23</sub> H <sub>41</sub> NO <sub>3</sub>
MW	379.58
Storage	
Structure	 <p>The image shows the chemical structure of Oleoyl proline, which consists of a long, unsaturated hydrocarbon chain (oleoyl group) attached to a proline ring. The oleoyl chain has a single double bond in the middle, and the proline ring is a five-membered ring containing one nitrogen atom and one oxygen atom.</p>
