

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37904
Name	N-Benzoyltyrosine

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>16</sub> H <sub>15</sub> NO <sub>4</sub>
MW	285.29
Storage	
Structure	 <p>The image shows the chemical structure of N-Benzoyltyrosine. It consists of a tyrosine molecule where the amino group is substituted with a benzoyl group. The tyrosine part has a hydroxyl group on the para position of the side chain's phenyl ring. The benzoyl group is attached to the nitrogen atom of the side chain. The structure is labeled 'Chiral' above it.</p>
