

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC38004
Name	Chloramphenicol base

**Tel:** +86-21-58447131

## Chemical Properties

CAS	
Formula	C <sub>9</sub> H <sub>12</sub> N <sub>2</sub> O <sub>4</sub>
MW	212.2
Storage	
Structure	 <p>The chemical structure shows a central benzene ring. On the left side, there is a chiral carbon atom bonded to a hydroxyl group (HO) with a dashed bond, an amino group (NH<sub>2</sub>) with a wedged bond, and a hydroxymethyl group (HO-CH<sub>2</sub>) with a wedged bond. On the right side of the benzene ring, there is a nitro group (NO<sub>2</sub>) with a positive nitrogen atom bonded to two oxygen atoms, one of which is labeled 'Chiral'.</p>
