## Chemical Properties

CAS	60925-61-3
Formula	C <sub>20</sub> H <sub>21</sub> N <sub>7</sub> O <sub>6</sub> S <sub>2</sub>
MW	519.55
Storage	
Structure	 <p>The image shows the chemical structure of Ceforanide, a cephalosporin antibiotic. It features a central beta-lactam ring fused to a five-membered thiazolidine ring, which is further fused to a six-membered dihydrothiazine ring. A phenylacetamido group is attached to the 7-position of the beta-lactam ring, and a 2-phenylacetamidoethyl side chain is attached to the 3-position of the dihydrothiazine ring. The structure is shown in a skeletal representation with hydrogen atoms explicitly drawn.</p>
