

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC36268
Name	(±)- $\alpha$ -Tocopherol acetate

**Tel:** +86-21-58447131

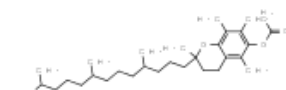

**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>31</sub> H <sub>52</sub> O <sub>3</sub>
MW	472.75
Storage	
Structure	 <p>The image shows the chemical structure of (±)-<math>\alpha</math>-Tocopherol acetate. It consists of a chromanol ring system with a phytyl side chain and an acetate group. The structure is shown in a skeletal representation with atom labels (C, H, O) and bond types.</p>
Purity
