Chemical Properties

CAS	
Formula	C ₁₆ H ₂₁ NO ₃
MW	275.348
Storage	
Structure	 <p>The chemical structure shows a bicyclic tropane ring system (8-azabicyclo[3.2.1]octane) with an NH group. It is linked via an ester bond to a side chain that includes a hydroxyl group (-OH) and a phenyl ring. The phenyl ring is labeled with a 'C' and 'H' atom, likely indicating a chiral center or a specific isomer.</p>
