## Chemical Properties

CAS	
Formula	C <sub>13</sub> H <sub>19</sub> N <sub>3</sub> O <sub>4</sub>
MW	281.312
Storage	
Structure	 <p>The chemical structure of Pendimethalin is a 2,6-dimethyl-4-nitrophenylamine derivative. It features a central benzene ring with methyl groups at the 2 and 6 positions and a nitro group at the 4 position. The nitrogen atom of the amine group is bonded to a 2-methylpropyl chain.</p>
