Chemical Properties

CAS	
Formula	C ₂₁ H ₁₃ N ₀
MW	295.34
Storage	
Structure	 <p>The image shows the chemical structure of Acridone, which consists of a central pyridinone ring fused to two benzene rings. The pyridinone ring has a carbonyl group (=O) at the 2-position and a hydrogen atom on the nitrogen at the 1-position.</p>
