Chemical Properties

| | |
|-----------|--|
| CAS | |
| Formula | C ₁₉ H ₂₀ CLN ₃ O ₃ S |
| MW | 369.86 |
| Storage | |
| Structure |  <p>The chemical structure shows a bicyclic imidazolidine ring system (8-azabicyclo[3.2.1]octane) connected via an amide bond to a 2-chlorophenyl ring. The phenyl ring also features a sulfonamide group (-NH-SO₂-) at the 3-position. The sulfonamide nitrogen is shown with a dashed bond to a hydrogen atom, and the sulfur atom is bonded to two oxygen atoms. A label 'Chiral' is positioned above the sulfonamide group.</p> |
