

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37023
Name	Bendazac lysine

Tel: +86-21-58447131

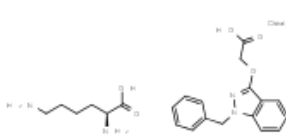

Fax: +86-21-61642470

Email:

Chemical Properties

CAS	
Formula	C ₂₂ H ₂₈ N ₄ O ₅
MW	428.49
Storage	
Structure	 <p>The image shows two chemical structures. On the left is the lysine residue, represented as a zwitterion with a protonated amine group (NH₃⁺) and a carboxylate group (COO⁻). On the right is the bendazac moiety, which consists of a benzimidazole ring system substituted with a benzyl group and a 2-oxoethyl group.</p>
