Chemical Properties

CAS	
Formula	C ₁₄ H ₂₄ O ₂
MW	224.34
Storage	
Structure	 <p>The image shows the chemical structure of Geranyl butyrate, which is an ester. It consists of a butyrate group (CH₃-CH₂-CH₂-C(=O)-) attached to a geranyl group (a branched chain with two double bonds and a terminal methyl group). The structure is drawn in a skeletal format with labels for the methyl groups (H₃C).</p>
