Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C10H10O4 |
| MW | 194.19 |
| Storage | |
| Structure |  <p>The image shows the chemical structure of dimethyl phthalate. It consists of a central benzene ring with two carbonyl groups (C=O) attached to adjacent carbons. Each carbonyl group is further bonded to a methoxy group (-OCH₃). The labels 'H₃C' and 'O' are placed near the methoxy groups to indicate their composition.</p> |
