

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37122
Name	Diethyl malonate

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C7H12O4
MW	160.17
Storage	
Structure	 <p>The image shows the chemical structure of Diethyl malonate, which consists of a central carbon-carbon bond. Each carbon is double-bonded to an oxygen atom and single-bonded to an ethoxy group (-OCH2CH3). The structure is drawn in a skeletal format with labels 'H3C' and 'CH3' at the ends of the ethoxy chains.</p>
