Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C ₁₄ H ₁₈ O ₄ |
| MW | 250.29 |
| Storage | |
| Structure |  <p>The image shows the chemical structure of Diisopropyl phthalate. It consists of a central benzene ring with two phthalate groups attached at the 1 and 2 positions. Each phthalate group is an ester linkage (-COO-) connecting the benzene ring to an isopropyl group (-CH(CH₃)₂). The structure is drawn in a skeletal format with labels for the atoms: H, C, O, and CH₃.</p> |
