

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37210
Name	p-Acetylphenyl acetate

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>10</sub> H <sub>10</sub> O <sub>3</sub>
MW	178.19
Storage	
Structure	 <p>The image shows the chemical structure of p-Acetylphenyl acetate. It consists of a central benzene ring with two acetyl groups (-COCH<sub>3</sub>) attached at the para positions. One acetyl group is attached to the left side of the ring, and the other is attached to the right side. The labels 'CH<sub>3</sub>' and 'O' are placed near the respective carbonyl groups to indicate their structure.</p>
