Chemical Properties

CAS	
Formula	C ₉ H ₁₁ NO
MW	149.19
Storage	
Structure	 <p>The chemical structure shows a benzene ring attached to a propionaldehyde oxime chain. The propionaldehyde chain consists of a central carbon atom bonded to a methyl group (CH₃), a phenyl ring, and a carbon atom that is double-bonded to a nitrogen atom. The nitrogen atom is further bonded to a hydroxyl group (OH).</p>
