Chemical Properties

CAS	
Formula	C ₁₂ H ₁₄ N ₄ O ₂ S
MW	278.33
Storage	
Structure	 <p>The chemical structure of Sulfisomidine consists of a pyrimidine ring substituted with two methyl groups (CH₃) at the 2 and 6 positions. This ring is connected via its nitrogen at the 4-position to a sulfonamide group (-NH-SO₂-). The sulfonamide group is further attached to a para-aminophenyl ring (-NH₂).</p>
