Chemical Properties

CAS	
Formula	C ₁₂ H ₂₀ O ₆
MW	260.29
Storage	
Structure	 <p>The image shows the chemical structure of Diacetoneglucose, a cyclic sugar derivative. It features a central five-membered ring with an oxygen atom at the top. Two acetyl groups (CH₃CO-) are attached to the ring. A hydroxyl group (OH) is also present. The structure is labeled 'CH₃CO' above the right-hand acetyl group.</p>
