Chemical Properties

| | |
|-----------|--|
| CAS | |
| Formula | C ₂₁ H ₃₃ N ₃ O ₅ S |
| MW | 439.57 |
| Storage | |
| Structure |  <p>The image shows the chemical structure of Amdinocillin pivoxil. It consists of a bicyclic penamycin core (6-aminocapillomycin) linked via a pivoxil ester group to a piperazine ring. The structure is labeled with 'CH₃' groups and 'CH₂' groups to indicate the carbon and hydrogen atoms in the molecule.</p> |
