

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37550
Name	Triamcinolone hexacetonide

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>30</sub> H <sub>41</sub> FO <sub>7</sub>
MW	532.65
Storage	
Structure	 <p>The image shows the chemical structure of Triamcinolone hexacetonide. It is a complex steroid molecule with a hexacetonide ring system fused to the D-ring of the steroid nucleus. The structure is labeled 'Chemical' and includes various atoms and bonds, such as carbons (C), hydrogens (H), oxygens (O), and fluorine (F).</p>
