Chemical Properties

CAS	
Formula	C ₂₈ H ₃₁ NAO ₉ S
MW	566.6
Storage	
Structure	 <p>The image shows the chemical structure of Prednisolone sodium metazoate. It consists of a steroid nucleus with a 21-acetate group at C-21, a 3-ketone group at C-3, and a 20-ketone group at C-20. The sodium metazoate group is attached to the C-21 position. The structure is shown in a 3D perspective view.</p>
