

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37587
Name	Formothion

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>6</sub> H <sub>12</sub> NO <sub>4</sub> PS <sub>2</sub>
MW	257.25
Storage	
Structure	 <p>The chemical structure of Formothion is shown. It consists of a 2-methyl-2-propenal moiety linked via a methylene group to a sulfur atom, which is further bonded to a phosphorus atom. The phosphorus atom is also bonded to a sulfur atom and two methoxy groups.</p>
