Chemical Properties

CAS	
Formula	C ₆ H ₉ N ₃ O ₃
MW	171.15
Storage	
Structure	 <p>The chemical structure shows a diazo group (N=N) attached to a carbonyl group (C=O). This carbonyl is part of a chain that includes a chiral center (marked 'Chiral') with an amino group (NH₂) and a hydroxyl group (OH). The structure is labeled with 'N⁻' and 'N⁺' on the diazo group, and 'NH₂' and 'OH' on the chiral center.</p>
