Chemical Properties

CAS	
Formula	C ₁₀ H ₁₈ O ₆
MW	234.24
Storage	
Structure	 <p>The image shows the chemical structure of Diisopropyl tartrate, which is a diester of tartaric acid. It consists of a central tartaric acid core where the two hydroxyl groups have been replaced by isopropoxy groups. The structure is drawn in a skeletal format with labels for the atoms: C, H, O, and CH₃.</p>
