Chemical Properties

CAS	
Formula	C4H8O4
MW	120.1
Storage	
Structure	 <p>The image shows the chemical structure of L-Erythrose, a four-carbon sugar. It features an aldehyde group (CHO) on the left, a hydroxyl group (HO) on the second carbon (wedge), a hydroxyl group (OH) on the third carbon (dash), and a hydroxyl group (OH) on the fourth carbon (wedge). The label 'Chiral' is placed above the third carbon.</p>
