Chemical Properties

CAS	
Formula	C15H23N3O
MW	261.37
Storage	
Structure	 <p>The chemical structure shows a central benzimidazole ring system. A propyl chain is attached to the benzimidazole ring, with a hydroxyl group (HO) and a methyl group (CH3) on the terminal carbon. Another propyl chain is attached to the benzimidazole ring, with a methyl group (CH3) on the terminal carbon. The structure is labeled with 'CH3' and 'HO' groups.</p>
