

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC36709
Name	Dicyclohexylamine nitrite

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>12</sub> H <sub>24</sub> N <sub>2</sub> O <sub>2</sub>
MW	228.34
Storage	
Structure	 <p>The structure shows two cyclohexane rings connected by a secondary amine group (-NH-). The nitrogen atom is bonded to a nitrite group (-NO<sub>2</sub>), which is represented as a nitrogen atom double-bonded to one oxygen atom and single-bonded to another oxygen atom with a negative charge.</p>
