## Chemical Properties

CAS	
Formula	C <sub>14</sub> H <sub>14</sub> O <sub>4</sub>
MW	246.26
Storage	
Structure	 <p>The chemical structure of Decursinol is a bicyclic compound. It features a benzofuran core. The benzene ring has a prop-1-en-2-yl group at the 2-position and a 1-hydroxypropyl group at the 3-position. The furan ring has a methyl group at the 2-position. The structure is labeled with 'Chiral' and 'CH<sub>3</sub>' above the methyl group, and 'OH' below the hydroxyl group.</p>
