Chemical Properties

CAS	
Formula	C ₂₃ H ₁₅ F ₇ N ₂ O ₄
MW	516.3718
Storage	
Structure	 <p>The chemical structure shows a central benzene ring substituted with a trifluoromethyl group (-CF₃), a fluorine atom (-F), and a para-substituted amide group (-NH-CO-CH₂-). The amide group is further substituted with a phenyl ring that has a nitro group (-NO₂) at the para position.</p>
