

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC36805
Name	Cycloechinulin

Tel: +86-21-58447131
Fax: +86-21-61642470

Chemical Properties

CAS	
Formula	C ₂₀ H ₂₁ N ₃ O ₃
MW	351.406
Storage	
Structure	 <p>The chemical structure of Cycloechinulin is a complex polycyclic molecule. It features a central seven-membered ring containing a nitrogen atom. This ring is fused to a five-membered ring containing a nitrogen atom and a carbonyl group. Another five-membered ring is fused to the seven-membered ring, containing a nitrogen atom and a methyl group. A benzene ring is fused to the five-membered ring containing the nitrogen atom, with a methoxy group (-OCH₃) attached to it. The seven-membered ring also has a methyl group and a carbonyl group attached to it. The carbonyl group is further substituted with a methyl group and a methoxy group.</p>
