Chemical Properties

CAS	
Formula	C ₁₄ H ₁₈ O ₄
MW	250.29
Storage	
Structure	 <p>The chemical structure of Trolox is a 2,2,6-trimethyl-5-(2,4,6-trimethylphenyl)-2H-pyridin-3-ylmethanone. It features a central pyridine ring with a carbonyl group at the 2-position and a 2,4,6-trimethylphenyl group at the 5-position. The pyridine ring is substituted with three methyl groups at the 2, 6, and 6-positions.</p>
