Chemical Properties

CAS	
Formula	C30H46CL2N6O2
MW	593.63
Storage	
Structure	 <p>The chemical structure shows a complex molecule with a central benzimidazole core. It features a benzimidazole ring system substituted with a piperidine ring, a pyrrolidine ring, and a chlorine atom. The structure is shown with atom labels (H, C, N, O, Cl) and bond types (single, double).</p>
