Chemical Properties

CAS	1402837-76-6
Formula	C ₁₈ H ₂₁ FN ₂ O ₂
MW	316.37
Storage	Powder -20°C 3 years 4°C 2 years In solvent -80°C 6 months -20°C 1 month
Structure	 <p>The chemical structure shows a cyclohexane ring with a hydroxyl group (H O) and a hydrogen atom (H) on one carbon. This carbon is also bonded to a chiral center (CHiral) which is part of a side chain. The side chain includes a chiral center (CHiral) bonded to a nitrogen atom (N), which is further bonded to a benzimidazole ring system. A fluorine atom (F) is attached to the benzimidazole ring.</p>
Purity	>98%
