

Certificate of Analysis

Target	Inhibitors & Agonists>>Others>>Other Targets
Cat.No	DCY-116
Name	Isovitexin with

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	29702-25-8
Formula	C ₂₁ H ₂₀ O ₁₀
MW	432.38
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of Isovitexin with a chiral auxiliary. The structure consists of a flavanone core with a pyrogallol B-ring and a p-coumaroyl A-ring. The auxiliary is attached to the C-2 position of the flavanone. The auxiliary is a chiral auxiliary, likely a menthyl derivative, used to facilitate the synthesis of the natural product.</p>
Purity	>98%, Standard References Grade
