Chemical Properties

CAS	51-34-3
Formula	C ₁₇ H ₂₁ NO ₄
MW	303.35
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of Scopolamine. It consists of a tropane bicyclic core (8-azabicyclo[3.2.1]octane) with an epoxide ring at the 2-position and a methyl group at the 1-position. Attached to the 3-position is a propyl chain with a hydroxyl group at the 2-position and a phenyl ring at the 1-position.</p>
Purity	>98%
