Chemical Properties

CAS	
Formula	
MW	
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Dehydrotrametenolic acid is a complex polycyclic molecule. It features a central ring system with several methyl groups (CH₃) and a hydroxyl group (OH) attached. A side chain is present, containing a double bond (CH₂) and a carboxylic acid group (COOH).</p>
Purity	>98%, Standard References Grade
