

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC72403
Name	Isocitric acid

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	320-77-4
Formula	C ₆ H ₈ O ₇
MW	192.12
Storage	2 years -20°C Powder, 2 weeks 4°C in DMSO, 6 months -80°C in DMSO
Structure	 <p>The image shows the chemical structure of isocitric acid, which is a six-carbon dicarboxylic acid with two hydroxyl groups. The structure is drawn in a skeletal format with explicit hydrogen and oxygen atoms. The central carbon atom is bonded to a hydroxyl group (OH) and two carboxylic acid groups. One carboxylic acid group is at the top, and the other is at the bottom. The two hydroxyl groups are attached to the two carbons adjacent to the central carbon. The structure is shown in a perspective view, with the central carbon atom at the top and the two carboxylic acid groups extending downwards. The two hydroxyl groups are attached to the two carbons adjacent to the central carbon. The structure is shown in a perspective view, with the central carbon atom at the top and the two carboxylic acid groups extending downwards. The two hydroxyl groups are attached to the two carbons adjacent to the central carbon.</p>
Purity	>98%
